other effective ingredients for anti-aging  
carefully chosen by UNIMED Pharm

Unicenta Oral Solution,  
Human Placenta Nutrition

TAEYANGSU,  
Highly concentrated  
Placenta Nutrients

### The effect of peptides in Hydrolyzed Placenta Extracts

#### What are peptides?

Peptides are chains of amino acids. Due to the small size, they can be absorbed into the dermal layers. As absorbed peptides can give the energy to the weary skin, they improve wrinkles on face and revitalize the skin

**Skin firming &  
Wrinkle  
improvement**

**Whitening**

**Anti-aging &  
Anti-oxidant**

※ Its distinctive smell comes from Placenta extract and will be gone after being absorbed

### Red Ginseng Extract

Saponin and polyphenols of red ginseng protect the skin from harmful(active) oxygen and give an energy and radiance to the weary skin

### Green Tea Water

Using green tea water instead of purified water, it improves soothing effect

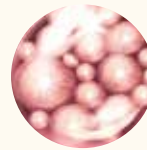

### Beta-Glucan

It is a natural moisturizer which is found at Yeast cell walls, mushrooms, grains and etc. By improving skin barrier, it makes your skin moist and smooth

### Nutritious ingredients from highly concentrated Placenta extracts

(Emulsion contains 5%, Essence contains 10%)  
Active peptide, Amino acid, growth factor, vitamin, mineral, enzyme, saccharide, hexane, and etc

### Whitening and Wrinkle improvement

Niacinamide for whitening effect and Adenosine for wrinkle improvement

### Botaniceutical Plus-10

A patented mixture of 10 natural ingredients offers skin protection from ultraviolet rays, whitening and Anti-wrinkle effect

### Glycyrrhiza(Licorice) Extract

Glycyrrhizin ingredient boosts the skin immunity and helps skin whitening by inhibiting melanin synthesis

### Honey Extract

As containing Vitamin B<sub>1</sub>, B<sub>2</sub>, B<sub>6</sub> and pantothenic acid, it moisturizes your skin and improves facial blood circulation

### Start with Placenta **cleansing bar**

Before Emulsion/Essence step, Make an abundant lather and apply all over the face. Rinse with plenty of water  
(Placenta extracts, Collagen, Ceramide, Coenzyme Q10)

※The period of use(130ml per bottle) will be 1~2 months. The applied amount and period of use can be adjusted depending on the skin and efficacy.

# “Find a solution to anti-aging with placenta nutrients”
